

### Biomedical Engineering Accelerated Master of Science

The accelerated B.S. to M.S. degree program (4+1 program) is open to qualified undergraduate Biomedical Engineering students interested in continuing their education immediately upon completing their undergraduate degree.

Accepted students take up to six graduate credit hours applied to their Bachelor's and Master's in Science in Biomedical Engineering.

*Students may pursue either thesis or non-thesis Master's degree options.*

#### **Eligibility Requirements:**

1. Meet minimum overall and engineering program GPA of 3.2.
2. Junior standing with at least 30 SCH of engineering courses complete.
3. Complete two graduate-level (6000-level or above) engineering courses instead of two 4000-level courses.
4. Complete the BIOE Accelerated Master's application
5. Apply to the University of Houston Graduate School by the admission [deadline](#).

#### **Part 1:** Complete the Accelerated M.S. Application

Complete the Accelerated M.S. Application with a letter of recommendation to the associate director of academic programs.

The deadline to complete the application is one month before enrolling in the graduate-level courses.

#### **Part 2:** Apply to the Graduate School

1. Apply for the M.S. in Biomedical Engineering during the graduating semester.
2. Include 3 letters of recommendation by entering emails in the ApplyTexas application.
3. Keep track of the admission deadlines through the UH Graduate School website.

#### **Part 3:** File a Transfer Petition

Speak with the Graduate Academic Advisor to complete a transfer petition during the first semester of the Master's Program.

The approved courses are listed at the bottom of the [Accelerated Master's Program](#) page.
